

## Jean-François De Rico

- Cloud Security Alliance (CSA), CCSK, 2017
- ISO/IEC 27001 Foundation, 2012
- COBIT Foundation, 2011
- Québec Bar 2001
- LL.B., Laval University, 2000
- B.A. (philosophy), Laval University, 1997

Jean-François De Rico is a partner and a member of the firm's executive committee at Langlois Lawyers where he specializes in information technology law. His main areas of focus and legal services are:

- IT governance;
- Legal and regulatory compliance;
- Privacy and the protection of personal data;
- Cybersecurity;
- Software development
- Licensing, integration agreements;
- Cloud agreements;
- IP rights management;
- Artificial intelligence
- Data analytics;
- Distributed ledger technologies (blockchain)

He also provides advice on issues pertaining to cloud migration, the development of software applications, the outsourcing of IT services, the supply and procurement of IT equipment and the implementation of E-business processes.

In addition, he assists clients in the drafting of organizational policies on the protection of personal data, electronic communications (commercial emails, social media), and information security.

He represents businesses, financial institutions and public bodies in litigious matters in various areas of activity such as the outsourcing of IT services, IT-related calls for tenders, and disputes involving trade-marks and domain names.

He is a member and co-operates with members of Lexing, the world's leading international network of law firms dedicated to technology law.

He has been included in both the Best Lawyers® in Canada listing and the Canadian Legal Lexpert® Directory since 2016, for Technology Law.
