

Logan - Bio

Daniel Logan | Partner, Baker & McKenzie LLP | 416-865-2319 | daniel.logan@bakermckenzie.com.

Daniel has over 20 years of domestic and international transaction experience in complex IT and outsourcing transactions, with particular expertise in the financial services sector involving FINTECH work. He regularly advises the firm's clients on their sophisticated outsourcing agreements, technology licensing and IT procurement matters, and their more complex e-commerce transactions such as those involving cloud computing and big data. Beyond his transactional work, Daniel has developed several innovative platforms in the areas of legal process, compliance and contract management work. In this field, he has designed, implemented and managed innovative legal processing solutions for several clients across various industries, including in the financial services sector. His work in this area resulted in his being identified by the Financial Times of London, in its 2015 Special Report on North American Innovative Lawyers, as at the forefront of innovation in the Canadian legal market. Daniel has also been recognized as being a leading practitioner in various reputable legal publications, including Lexpert/Thomson Canada's Canadian Legal Expert Directory; Chambers & Partners' Chambers Global: World's Leading Lawyers for Business and Chambers Canada, The Client's Guide; Intellectual Asset Management's IAM Licensing 1000: The World's Leading Patent Practitioners; and Law Business Research's Who's Who Legal: Canada.
