

# Tristan Mallet

Tristan Mallet is a Principal in **BCG**'s Montreal office. He is seconded to **IVADO**, a major Montreal-based data science & artificial intelligence research center, for a year starting Oct. 2017. He is acting interim CEO of **SCALE AI**, the Canadian supercluster<sup>1</sup> aiming to supercharge industrial supply chains with AI technologies.

While at BCG, Tristan has mainly worked in the utility, aerospace, mining & consumer goods industries.

His project experience includes:

- Growth strategy
- Strategic assessment
- Pricing
- Supply chains operations
- Global business expansion strategy
- Operating model definition
- Capital spend optimization
- Cost reduction
- Large-scale outsourcing

Prior to BCG, Tristan worked for 4 years as a business development project manager for a global utility company (transportation, water treatment, waste management, energy production) in design-build-operate and multi-services outsourcing contracts.

He served as a Lieutenant in the Paris anti-crime police unit during his military service.

Tristan holds a Ms. Science from Ecole Polytechnique Paris (2005), a Ms. Science in Environmental management from ENSTA Paris (2005), and a Ms. in Public Affairs from Sciences Po Paris (2007).
