

Alfredo Ramírez

Alfredo Ramírez is a Technical Lead for Cloud & Cognitive in Canada and the Caribbean with 27 years of experience in the IT Industry. He is an enabler to IBM's customers adopting the Bluemix PaaS and Blockchain solution technologies. Alfredo has spent half of his professional career with IBM Development Software Teams and related software engineering technologies. His work with clients in Canada and the Caribbean includes:

- defining software engineering strategy for enterprise solutions
- process improvement
- transition to service-oriented solutions

Alfredo has extensive experience in service-based design, component-based development, software engineering environments, scaling agile projects in outsourcing environments, globally distributed development, agile in large teams and enterprise application development tools.

He focuses on practical approaches to solving problems, finding pragmatic solutions, and achieving tangible business results for clients.
